Reachael Smart Family Calendar

Quick Start Guide · Model RSYNC150

Welcome to the wall

Your Reachael is a 15.6-inch touchscreen built to hang on the wall and put every family calendar in one place. It syncs Google Calendar, Apple iCloud, Outlook / Exchange, Cozi and Yahoo, and every feature is included - there is no subscription and no account to create on the display itself.

In the box: the display - wall-mount kit - power adapter - this guide. The display is wall-mounted by design and powered from the mains - there is no desktop stand and no internal battery.

1. What you need before you start

- A wall with the mounting area clear (masonry, wood stud or drywall with anchors).
- A power outlet within reach of the cable path - the display runs on mains power.
- Your Wi-Fi name and password (2.4GHz and 5GHz are both supported).
- A calendar account: Google, Apple iCloud, Outlook / Exchange, Cozi or Yahoo.

2. Mount it on the wall

The mounting points on the back are hidden and the back is also standard VESA 100x100 compatible if you would rather use your own TV or monitor bracket. Use the wall-mount kit in the box and fix the mount level - then hang the display and connect the power adapter. A multi-exit power channel keeps the cable tidy along the wall.

Prefer a different look? The front frame is interchangeable - grey, white or wood grain snap-on frames change the look like a picture frame, no tools involved.

3. First-time setup

- Plug the power adapter into the wall outlet - the display wakes on the calendar.
- Connect to your Wi-Fi network when prompted (dual-band, with automatic reconnect after router restarts, and it behaves with mesh systems).
- Open the sync settings and link your calendar account once. Events sync themselves - CalDAV two-way push rather than one-way pulling, so an event you add on your phone at work is on the wall in about a minute.

4. Add the free Rayshawl app

Every member of the family gets the free Rayshawl app on iOS and Android. Add events, approve chores and send reminders to the wall from anywhere - no login on the display itself. Search for Rayshawl in the App Store or Google Play, or scan the QR code on the Support page of reachaelplus.com.

5. What is built in - with nothing to pay

- Chore charts, star rewards, meal planning, photo screensaver and lists.
- Up to twelve color-coded profiles, one per family member.
- 32GB of on-device storage plus 5GB of cloud storage for photos and screensavers.
- Sleep mode, alarms and notifications - the wall goes quiet at night.

6. Care and placement

- Wall-mount only: do not place the display face-up on a table, counter or shelf, and do not stand it on the floor. It is designed - and wired - to hang.
- Keep the power adapter and cable dry and away from heat sources.
- Clean the laminated glass with a soft, dry cloth. No liquids.

7. Help when you need it

- Support center: reachaelplus.com/support - manuals, app downloads and how-to videos.
- Email: support@reachaelplus.com (we reply within 48 hours).
- Warranty: 2 years from purchase. Register your display at reachaelplus.com/warranty.
- Returns: 90 days from delivery. Start one at reachaelplus.com/return-center.
